INTERCONTINENTAL GOLD AND METALS LTD.

**INTERIM MANAGEMENT'S DISCUSSION AND ANALYSIS
- QUARTERLY HIGHLIGHTS**

**FOR THE THREE AND NINE MONTHS ENDED
SEPTEMBER 30, 2019**

Introduction

The following Interim Management Discussion & Analysis (“Interim MD&A”) of Intercontinental Gold and Metals Ltd. (the “Company”, “Intercontinental Gold”) has been prepared to provide material updates to the business operations, liquidity and capital resources of the Corporation since its last management discussion & analysis, being the Management Discussion & Analysis (“Annual MD&A”) for period ended December 31, 2018. This Interim MD&A does not provide a general update to the Annual MD&A, or reflect any non-material events since date of the Annual MD&A.

This Interim MD&A has been prepared in compliance with the requirements of section 2.2.1 of Form 51-102F1, in accordance with National Instrument 51-102 – Continuous Disclosure Obligations. This discussion should be read in conjunction with annual MD&A, the audited annual financial statements of the Company for the period and year ended December 31, 2018 and March 31, 2018 and the unaudited condensed interim consolidated financial statements for the three and nine months ended September 30, 2019, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. In the opinion of management, all adjustments (which consist only of normal recurring adjustments) considered necessary for a fair presentation have been included. The results for the three and nine months ended September 30, 2019 are not necessarily indicative of the results that may be expected for any future period. Information contained herein is presented as at November 6, 2019 unless otherwise indicated.

The unaudited condensed interim consolidated financial statements for the three and six months ended September 30, 2019, have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board and interpretations of the IFRS Interpretations Committee. The unaudited condensed interim consolidated financial statements have been prepared in accordance with International Standard 34, Interim Financial Reporting.

For the purposes of preparing this Interim MD&A, management, in conjunction with the Board of Directors, considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of Intercontinental Gold’s common shares; or (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board of Directors, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Further information about the Company and its operations is available on SEDAR at www.sedar.com.

Caution Regarding Forward-Looking Statements

This Interim MD&A contains certain forward-looking information and forward-looking statements, as defined in applicable securities laws (collectively referred to herein as “forward-looking statements”). These statements relate to future events or the Company’s future performance. All statements other than statements of historical fact are forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “continues”, “forecasts”, “projects”, “predicts”, “intends”, “anticipates” or “believes”, or variations of, or the negatives of, such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “should”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in such forward-looking statements. The forward-looking statements in this Interim MD&A speak only as of the date of this Interim MD&A or as of the date specified in such statement.

INTERCONTINENTAL GOLD AND METALS LTD.
INTERIM MANAGEMENT DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS
DISCUSSION DATE: NOVEMBER 6, 2019

Forward-looking statements	Assumptions	Risk factors
The Company may require additional capital in order to meet its ongoing operating expenses and growth objectives for the period ending September 30, 2020	The operating period for the twelve-month period ending September 30, 2019 and the strategy change and the costs associated therewith, will be consistent with Intercontinental Gold's current expectations; debt and equity markets, exchange and interest rates and other applicable economic conditions are favorable to Intercontinental Gold	Changes in debt and equity markets; timing and availability of external financing on acceptable terms; increases in costs; and other local legislation and regulation; interest rate and exchange rate fluctuations; changes in economic conditions.
The Company's ability to meet its working capital needs at the current level for the twelve months ending September 30, 2020 The Company's cash balance at September 30, 2019, may not be sufficient to fund its growth at current levels. At the date hereof, the Company's cash balance remains allocated primarily in support normal business operations.	The operating activities of the Company for the twelve-month period ending September 30, 2020, and the costs associated therewith, will be dependent on executing on our current business plan, consistent with Intercontinental Gold's current expectations; debt and equity markets, exchange and interest rates and other applicable economic conditions are favorable to Intercontinental Gold.	Adverse changes in debt and equity markets; timing and availability of external financing on acceptable terms; increases in costs; and other local legislation and regulation; interest rate and exchange rate fluctuations; changes in economic conditions
Management outlook regarding future trends	Financing will be available for the Company's growth objectives and development of its gold trading and refining business.	Interest rate and exchange rate fluctuation and political and economic conditions
Asset values for the period ended September 30, 2019 were not left to be impaired	Management's belief that no further write-down is required for its assets resulting from continuing efforts to raise capital (debt or equity, or a combination of both) to implement planned change of business strategy	If the Company does not obtain equity or debt financing on terms favorable to the Company or at all, a decline in asset values that could be deemed to be other than temporary, may result in impairment losses
Sensitivity analysis of financial instruments	Equity price will not be subject to change in excess of plus or minus 10%	Changes in debt and equity markets; interest rate and exchange rate fluctuations

Inherent in forward-looking statements are risks, uncertainties and other factors beyond Intercontinental Gold's ability to predict or control. Please also make reference to those risk factors referenced in the "Risks and Uncertainties" section below. Readers are cautioned that the above chart does not contain an exhaustive list of the factors or assumptions that may affect the forward-looking statements, and that the assumptions underlying such statements may prove to be incorrect. Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this Interim MD&A.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause Intercontinental Gold's actual results, performance or achievements to be materially different from any of its future results, performance or achievements expressed or implied by forward-looking statements.

All forward-looking statements herein are qualified by this cautionary statement. Accordingly, readers should not place undue reliance on forward-looking statements. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements whether as a result of new information or future events or otherwise, except as may be required by law. If the Company does update one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those or other forward-looking statements, unless required by law.

Description of Business

Intercontinental Gold was incorporated under the British Columbia Business Corporations Act and on October 30, 2017 was continued to Ontario and is now registered under the Ontario Business Corporations Act. The Company's head office is located at 217 Queen Street W., Suite 401, Toronto, Ontario, M5V 0R2 and it is listed on the TSX-Venture and Frankfurt exchanges under the symbol ICAU and G2W2, respectively.

The Company was historically a mineral exploration company engaged in the acquisition and exploration of mineral properties, the evaluation of early staged exploration projects. In June, 2015, the Company initiated the strategy of becoming an integrated metal trading and resources company. As of August 2017, the Company completed its acquisition of Goldway SRL and fulfilled its initial goal of achieving sustainable revenues and cash flows derived from physical gold trading.

The Company currently generates revenue from sale of gold purchased at a discount from licensed Artisanal and Small Gold Miners (ASGM's). Additional income is generated from foreign exchange and net interest margin on cash balances. Forward looking plans include strategic reviews to leverage the Company's gold trading business and access to physical gold, an historical store of value and form of currency to generate revenues from storage and emerging trends in gold-backed digital currency utilizing the latest in distributed ledger technologies.

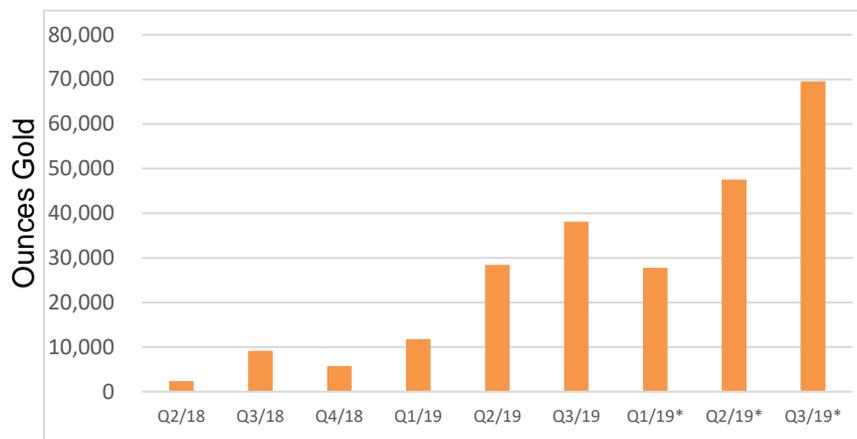

Operational Highlights

During the three-months ended September 30, 2019 the Company achieved multiple corporate milestones and record operational and financial results maintaining its triple digit growth trajectory.

- First ever positive quarterly earnings result in the Company's plus 50-year history of \$0.36 million or \$0.02 per share.
- First ever direct sale to jewelry manufacturer.
- Record quarterly revenue during the period of \$136,009,227, an increase of 286% over \$35,249,072 reported in comparable period of 2018.
- Record refined gold sales/exports during the period of 69,588 ounces, an increase of 145% versus 28,440 ounces during the comparable period in 2018.
- Average refined grade of bullion exported during the period was 24 carat.
- Quarterly gold trading and exports continued to exhibit strong growth.
- Partnered with PUM Netherlands Senior Experts ("PUM") to conducted site visits to review small miner operations to assess opportunities for improving operations and securing long-term offtake agreements with certain cooperatives.
- Achieve record refinery production reaching 80% of installed 1 tonne per month capacity.
- Management continued to work closely with mining unions and small miners and received a "Reconocimiento por su Valioso aporte y Fidelidad" or "Recognition for Your Valuable Contribution and Loyalty" award.

INTERCONTINENTAL GOLD AND METALS LTD.
INTERIM MANAGEMENT DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS
DISCUSSION DATE: NOVEMBER 6, 2019

Quarterly Gold Trading and Refining Operations Exports

* Year-end changed to December 31 starting December 31, 2018

- **Capital Investment** – completed capital investment related to the expansion of refining operations initiated in second quarter ended June 30, 2019.

Finance and Corporate Developments – Record Quarterly Results

- **Expanding Commodity Trading Platform** - the Company's growth strategy in Bolivia and elsewhere in Latin America ("LATAM") is to aggressively expand its gold and metals trading business. Discussions are ongoing with producers and end users to further expand gold trading volumes and seek other trading opportunities in bulk commodities, ores, concentrates and energy metals.
- **Strategic Small Miner Operations Initiative** - during the quarter we partnered with PUM Experts to review operating procedures at a select group of our small miner client operations. The goal of the review is to identify operating and recovery efficiencies to achieve higher overall gold production and long term off take contracts to the benefit of the Company
- **Stock Options** – No Stock options were issued during the quarter ended September 30, 2019. On February 11, 2019, the Company announced that it had granted an aggregate of 400,000 options to purchase common shares of the Company exercisable at a price of \$0.13 per common share for periods ranging from 2 to 5 years, to certain directors, officers, employees and consultants, pursuant to the Company's stock option plan. The common shares issuable upon exercise of the options are subject to a four month hold period from the original date of grant.
- **Growth Strategy** – the Company's expansion strategy in Bolivia and elsewhere in Latin America ("LATAM") is to aggressively grow its gold and metals trading and gold refining businesses;
 - **Gold and Metals Trading Opportunities** – Bolivian operations continue to offer expansion opportunities as evidenced by another quarter of record growth in exports.
 - **Refined Gold Opportunities** – our refined gold (24 carat) production is actively marketed to global refiners, financial services companies and directly to jewelers and jewelry manufacturers. The Company also plans to initiate online bullion sales, offering gold bullion direct to investors. In addition to physical bullion sales expansion plans the company continues to advance discussions with consultants to establish a digital gold platform. Gold as Money is a burgeoning sector with allocated physical gold being the basis for every day electronic transactions. This market opportunity is global as gold's inherent value transcends borders as a truly global currency.

INTERCONTINENTAL GOLD AND METALS LTD.
 INTERIM MANAGEMENT DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS
 DISCUSSION DATE: NOVEMBER 6, 2019

Financial Highlights

Three months ended September 30, 2019 compared with three months ended September 30, 2018

Intercontinental Gold's net profit totaled \$359,557 for the three months ended September 30, 2019, with basic and diluted earnings per share of \$0.02. This compares with a net loss of \$247,547 with basic and diluted loss per share of \$0.02 for the three months ended September 30, 2018. The increase of \$607,104 in net profit was principally because:

- Revenue derived from gold trading business increased to \$136,009,227 for the quarter-ended September 30, 2019 from \$35,249,072 during the three months ended September 30, 2018. This was offset by cost of sales of \$134,802,360 for the quarter-ended September 30, 2019 as compared to \$34,649,392 during the three months ended September 30, 2018.
- For the three months ended September 30, 2019, operating profits (revenues less cost of sales) increased by \$607,187 to \$1,206,867 for the quarter-ended September 30, 2019 from \$599,680 during the three months ended September 30, 2018.
- The above increase in operating profits was offset by increased operating expenses, primarily office and miscellaneous expense which increased by \$467,439 and accounting and audit expense which increased by \$13,674. These increases were countered by reduction in other expenses, such as; business development expenses which decreased by \$26,174, legal expenses decreased by \$59,147, shareholder communications expense decreased by \$52,085, depreciation expense decreased by \$9,299 and consulting fees decreased by \$9,299 as compared to three months ended September 30, 2018. The increases are attributable to the increased level of business activity related to active gold trading, whereas decreases in marketing, legal, business development and other consulting services provided by the Company's consultants were a result of stringent cost controls.

Adjusted EBITDA

The following table reconciles net income (loss) to adjusted EBITDA:

	Three months ended September 30,	
	2019	2018
Net income (loss)	\$ 359,557	\$ (247,547)
Adjustments:		
Depreciation (note 7)	13,341	22,640
Share-based compensation (note 11)	0	0
Loss on debt settlement (note 10(b)(i))	0	0
Foreign exchange gain	(133,416)	(13,114)
Accretion on bonds (note 9)	69,092	43,319
Accretion of lease liability (note 13)	412	0
Interest expense on bond (note 9)	147,740	189,002
Income tax expense	90,325	0
Adjusted EBITDA	\$ 547,051	\$ (5,700)

Adjusted EBITDA of \$547,051 (\$0.03 per share) for the three months ended September 30, 2019 increased 9,697% or \$552,751 compared to the same quarter of 2018 primarily as a result of the significant increase in refined gold exports and corresponding increase in revenue during the period.

Cash Flow, Liquidity and Financial Position

This section should be read in conjunction with the audited statements of financial position for the period

INTERCONTINENTAL GOLD AND METALS LTD.
INTERIM MANAGEMENT DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS
DISCUSSION DATE: NOVEMBER 6, 2019

ended December 31, 2018 and year ended March 31, 2017, and the corresponding notes thereto. The activities of the Company are principally gold and metals trading. The Company's financial statements have been prepared on a going concern basis, under which the Company is assumed to be able to realize its assets and discharge its liabilities in the normal course of operations. The Company achieved first revenue from operations during the year ended March 31, 2018 but expects to incur losses in the development of its business. It is therefore required to fund its activities through the issuance of equity securities and other financing alternatives. The Company's ability to continue as a going concern is therefore dependent upon its ability to raise funds.

The Company achieved profitable operations in the current quarter but has incurred significant losses to date resulting in a cumulative deficit of \$39,305,400. As at September 30, 2019 the Company had cash of \$549,911 to settle current liabilities of \$8,204,084.

To continue to expand operations and to fund growth and future obligations, the Company must achieve even higher levels of profitability, or it will be required to raise funds through equity or other financing alternatives. Recent global economic conditions and market uncertainty may have an impact on the Company's ability to raise funds through the equity markets. Management believes that there are sources of financing available. There can be no assurance that the Company will be successful in its future fund-raising activities. See "Risks and Uncertainties" below.

The Company relies on issuance of equity securities and alternative sources of financing, if required, to maintain adequate liquidity to support its ongoing working capital commitments. The following table is a summary of quantitative data about what the Company manages as capital:

	September 30, 2019 \$	December 31, 2018 \$	Change \$
Current Assets	10,854,084	4,903,560	5,950,524
Share Capital	33,586,699	33,586,699	nil
Share Based Payments	4,992,233	4,947,441	44,792
Deficit	(39,305,400)	(39,304,719)	(681)

The Company monitors these items to assess its ability to fulfill its ongoing financial obligations, interest payments on Notes and growth funding requirements. To manage the Company's capital, given the recent economic conditions, management maintains relatively streamlined operations prioritized allocation of capital to gold and metals purchases over capital investment to the extent possible. The Company will, from time to time, consider raising additional funds as and when required.

As at September 30, 2019, the Company had positive working capital of \$2,650,000 compared to working capital of \$2,898,549 as at September 30, 2018.

Receivables were \$267,623 at September 30, 2019 and consisted primarily of HST/GST input tax credit claims compared to \$256,018 as at December 31, 2018. The increase is mainly due to increased level of HST/GST input tax credit claims during the nine months ended September 30, 2019. Amounts payable and accrued liabilities, which are expected to be paid in the normal course of business, were collectively \$8,204,084 at September 30, 2018, compared to \$2,336,913 at December 31, 2018.

Cash used in operating activities

Cash used in operations was \$51,868 for the nine months ended September 30, 2019 compared to cash provided in operations of \$1,329,310 in the nine months ended September 30, 2018. The decrease of \$1,381,178 in cash provided in operations is due to increased business activity related to gold and metals trading, specifically higher pre-paid expenses and advances at quarter end.

Cash used in investing activities

Cash used in investing activities was \$306,432 for the nine months ended September 30, 2019 compared to cash used in investing activities of \$127,972 for the nine months ended September 30, 2018. The increase of \$178,460 in cash used in investing activities is related to refinery expansion and payment of deferred Goldway acquisition payments made during the period.

Cash from financing activities

Cash used in financing activities for the nine months ended September 30, 2019 was \$306,432 as compared to cash provided by financing activities of \$3,184,223 for the nine months ended September 30, 2018. The decrease was due to the \$3,306,500 gross proceeds from a unit financing offset by unit financing costs of \$143,231 during the nine months ended September 30, 2018. In addition, for the nine months ended September 30, 2018, there was cash inflow of \$554 from related party and \$20,400 from exercise of broker warrants. In comparison, during the nine months ended September 30, 2019, there were lease payments of \$38,879 and payment of interest expense of \$287,600.

New Accounting Policy Adopted

The Company has adopted IFRS 16 – Leases, which is effective for annual reporting periods beginning on or after January 1, 2019. Previously, the Company classified leases as operating or finance leases based on IAS 17 - Leases.

The Company has applied IFRS 16 in accordance with the modified retrospective approach only to contracts that were previously identified as leases. Contracts that were not identified as leases under previous standards were not reassessed for whether there is a lease. Therefore, the definition of a lease under IFRS 16 was applied only to contracts entered into or changed on or after January 1, 2019. The Company has determined that there is no change to the comparative periods required as a result of the adoption of this standard.

On initial application, for leases previously classified as operating leases under IAS 17, the Company has elected to record right-of-use assets based on the corresponding lease liability. As such, as at January 1, 2019, the Company recorded lease obligations of \$36,286 and right-of-use assets of \$36,286, with no net impact on deficit (See Notes 8 and 13).

When measuring lease liabilities for those leases previously classified as operating leases under IAS 17, the Company discounted future lease payments using its incremental borrowing rate as at January 1, 2019. The weighted-average rate applied is 20%.

The Company has elected to apply the practical expedient on facility leases, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component.

The Company's accounting policy for leases under IFRS 16 is as follows:

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. Contracts that convey the right to control the use of an identified asset for a period of time in exchange for consideration are accounted for as leases giving rise to right-of-use assets.

At the commencement date, a right-of-use asset is measured at cost, where cost comprises: (a) the amount of the initial measurement of the lease liability; (b) any lease payments made at or before the commencement date, less any lease incentives received; (c) any initial direct costs incurred by the Company; and (d) an estimate of costs to be incurred by the Company in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

A lease liability is initially measured at the present value of the unpaid lease payments discounted using the interest rate implicit in the lease or if that rate cannot be reliably determined, the Company's incremental borrowing rate. Subsequently, the Company measures a lease liability at amortized cost using the effective interest method. It is then remeasured to reflect revised in-substance fixed lease payments. Except where the costs are included in the carrying amount of another asset, the Company recognizes in profit or loss (a) the interest on a lease liability and (b) variable lease payments not included in the measurement of a lease liability in the period in which the event or condition that triggers those payments occurs. The Company subsequently measures a right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses; and adjusted for any re-measurement of the lease liability. Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term.

Capital Risk Management

The Company defines capital that it manages as shareholders' equity, consisting of issued share capital, reserve and deficit.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support its gold and metals trading business. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to externally imposed capital restrictions.

The Company currently has no interests in exploration stage; but has historically relied on the equity markets to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient economic potential and if it has adequate financial resources to do so.

There was no change in management's approach to capital management during the period ended September 30, 2019.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than Policy 2.5 of the TSXV which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months.

Financial Instruments and Risk Management

The fair value of cash and marketable securities are measured based on level 1 inputs of the fair value hierarchy. The fair values of receivables, accounts payable and accrued liabilities and loan from related party approximate their fair value because of the short-term nature of these instruments. The promissory notes are measured at carrying value at the effective interest rate which approximates fair value.

Financial Risk Factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk - Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and receivables. The Company places its cash in major financial institutions. Management believes that the credit risk concentration with respect to financial instruments included in receivables is remote.

Liquidity Risk - The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As of September 30, 2019, the Company had a cash balance of \$549,911 to settle current liabilities of \$8,204,084. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Market Risk - Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

Interest Rate Risk - The Company has cash balances and the promissory notes are subject to fixed interest rates. The Company's current policy is to invest excess cash in investment-grade demand investments issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

INTERCONTINENTAL GOLD AND METALS LTD.
 INTERIM MANAGEMENT DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS
 DISCUSSION DATE: NOVEMBER 6, 2019

Foreign Currency Risk - The Company is nominally exposed to foreign currency risk on fluctuations related to assets and liabilities that are denominated in US Dollars and Bolivianos.

Gold Price Risk - The Company is exposed to gold price risk given that its revenues are derived from the sale of gold through its gold dore and bullion products, the prices for which have been historically volatile. Consequently, the economic viability of the Company's operations may be adversely affected by fluctuations in metal prices. For gold shipped and provisionally invoiced during the quarter ended September 30, 2019, a 1% change in gold prices would result in an immaterial increase/decrease in the Company's pre-tax income. As at September 30, 2019, the embedded derivative arising from the provisional pricing is deemed immaterial.

Sensitivity Analysis - The Company does not hold marketable securities which would give rise to exposure to price risk.

Fair Value Hierarchy - Receivables have been classified as loans and receivables and are measured at amortized cost. Accounts payable and accrued liabilities, loan from related party and promissory notes are classified as other financial liabilities and are measured at amortized cost. Cash and marketable securities are classified as fair value through profit and loss ("FVTPL") and carried at fair value.

IFRS 7 - Financial Instruments: Disclosures requires classification of fair value measurements using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The levels of the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and,

Level 3: Inputs for the asset or liability that are not based on observable market data.

As at September 30, 2019 none of the Company's financial instruments were held at fair value other than cash and marketable securities which were classified as level 1 inputs at the fair value hierarchy.

Trade receivable/payable from provisional sales of gold includes provisional pricing, and final price and assay adjustments. Derivative instruments are forward arrangements that were valued using pricing models, which require a variety of inputs, such as expected gold prices and foreign exchange rates. The trade receivable/payable from sales of gold and derivative instruments are valued using observable market commodity prices and thereby classified within Level 2 of the fair value hierarchy.

Economic Dependence - During the quarter ended September 30, 2019, three customers (2018 – one customer) accounted for 100% of the Company's total revenue. The loss of the above customers could have a material adverse effect on the Company's financial position and results of operations.

Related Party Transactions

(a) The Company entered into the following transactions with related parties recorded as legal fees:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2019 (\$)	2018 (\$)	2019 (\$)	2018 (\$)
Irwin Lowy LLP (i)	3,171	11,064	8,036	96,956

(i) A director of the Company is a partner at Irwin Lowy LLP, a law firm, and these fees related to professional services provided by the firm. As at September 30, 2019, the Company owed \$32,808 (March 31, 2018 - \$49,309) to this firm and this amount was included in accounts payable and accrued liabilities. The amount is unsecured, non-interest bearing with no fixed terms of repayment.

45,000	January 5, 2023	\$0.20
1,822,500	April 13, 2018	\$0.20
99,000	April 13, 2018	\$0.20
5,881,200		

Stock options outstanding for the Company at the date of this Interim MD&A were as follows:

Options	Expiry Date	Exercise Price
2,088,000	August 10, 2022	\$0.11
1,060,000	April 20, 2023	\$0.45
400,000	February 11, 2024	\$0.13
3,548,000		

Disclosure of Internal Controls

Management has established processes to provide them sufficient knowledge to support representations that they have exercised reasonable diligence that (i) the unaudited condensed interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited condensed interim financial statements;

DISCUSSION DATE: NOVEMBER 6, 2019

and (ii) the unaudited condensed interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), this Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing this certificate are not making any representations relating to the establishment and maintenance of:

- i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP (IFRS).

The issuer's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in this certificate. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost-effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

Risks and Uncertainties

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Please refer to the section entitled "Risk Factors Relating to the Company's Business" in the Company's MD&A for the fiscal year ended December 31, 2018, available on SEDAR at www.sedar.com.
